

MAS-MU

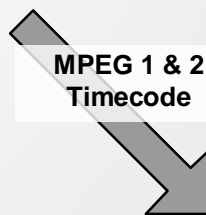

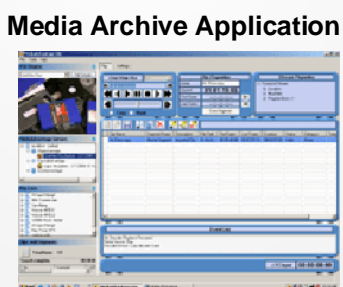

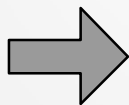

Media Archive Systems

We Bring the Solution to You

The **MAS-32 Broadcast Quality Mobile Audio / Video Archiving System** is the most powerful archival system that is designed for the largest libraries. It is a fully equipped semi-trailer mobile unit. The MAS-32 includes thirty-two tape players, encoders, archiving server, archiving software, monitors and all the necessary accessories. You choose the storage format that best suits your business needs.

System Cost: call for quote, minimum 5 day lease
Average productivity 1000 half hour tapes per day
Conversion cost at less than 20 cents per minute
Installation and training: Included

Once the system is configured for the library to be archived, it is then moved to the site to begin the archiving process. This minimizes the time to be operational and tapes may begin to be cycled thru the unit.
